of South Australia

Botanic Gardens
and State Herbarium

Watching Glass Grow is a Challenge Course created in collaboration between Makers Empire and the Botanic Gardens and State Herbarium for *Chihuly in the Botanic Garden*, an exhibition featuring glass art by Dale Chihuly held September 2024 to April 2025.

The Challenge Course encouraged young people to learn all about how glass is made and how artists, like artist Dale Chihuly, look at nature to inspire incredible artworks.

Watching Glass Grow had more than 4000 students take part during the Chihuly in the Garden exhibition, and from those entries, 10 were selected to be part of the virtual gallery, located around Adelaide Botanic Garden.

Watching Glass Grow is available and free for anyone can use! Follow the QR code for more information.

Please note that the competition closed in April 2025 however the challenge course is still available online.

SCAVENGER HUNT

You are looking for:

- **10 3D Designs** that can be viewed in Augmented Reality by scanning a QR code found on signs around the Garden
- **2 pieces of art created by Dale Chihuly** as part of the exhibition, *Chihuly in the Botanic Garden*.

Use the map to find all 12 locations around Adelaide Botanic Garden. Check them off as you go!

Each QR code can be found on a green sign like this example below.

- How can you use colours, shapes and patterns found in nature to inspire your next artwork?
- Why do you think that spending time in nature can make people feel creative?
- Can you find a plant, tree or flower from today's scavenger hunt that will inspire your next artwork?
